

TRURO 365

Hello neighbors, welcome to Truro365!

Who We Are

Truro365 is an intergenerational coalition of Truro residents who support affordable housing and other initiatives that improve the quality of life for us all.

Some of us have lived here our whole lives, and some of us have more recently "washed ashore."

We all care deeply about this place—both its past and its future—and we welcome everyone who feels the same way.

What You Can Expect from Us

First and foremost, you can expect **factual information and thoughtful opinions** from involved members of our community. We are neighbors affected by the housing crisis on the Outer Cape. We believe Truro is at a turning point and we are dedicated to creating a healthy, year-round Truro.

- **The Antidote to Social Media:** We aim to move away from fearful and heated online debates. These issues deserve nuance and consideration. We're proud to put our names on what we believe.
- **Education & Engagement:** We'll provide clarity on complicated town government processes and keep you informed on when to weigh in, how to get involved, and how to connect face-to-face with others who care about these issues.
- **Town Meeting Prep: An important Town Meeting is coming up! We will vote on both pro-year round measures and others that would stop Walsh and affordable housing efforts in its tracks.** Between now and the Annual Town Meeting, we will share think pieces on Warrant articles and a comprehensive voter guide on the articles we support. Stay tuned and be sure to attend the **Annual Town Meeting on May 16th.**

From our [website](#):

How Bad Is the Housing Crisis? On this [date \(4/20/26\)](#), there were zero affordably-priced year-round apartments that were available to rent on the Outer Cape and only two within a 45 minute drive of Truro.

Quick Fact: A working family would have to make \$375,000 a year to buy a home in Truro today.

Voices: "When you can't get an appointment with a doctor or dentist, it's because many recruits never moved here. When the vet closes at noon, and you can't find a plumber, and therapists and home health aides have an eight-month waiting list, it's because we can't house people with those jobs' incomes anymore."
